

It all ends up in our streams

Stream Clean 2014

City of Union City

Union City Public Services will be cleaning several streams and runoff areas around the City during the Georgia Cities Week April 12th—19th. Many people are not aware that what is washed off of our yards, streets and driveways goes into our storm system untreated and ends up in our creeks and rivers. We can all do our part by limiting our litter, pesticide usage and reducing runoff from our property.
